ACADEMIC INTEGRITY

The Lone Star College System is committed to a high standard of academic integrity in the academic community. In becoming a part of the academic community, students are responsible for honesty and independent effort. Failure to uphold these standards includes, but is not limited to, the following:

- plagiarizing written work or projects, cheating on exams or assignments, collusion on an exam or project, and misrepresentation of credentials or prerequisites when registering for a course.
- Cheating includes:
 - looking at or copying from another student's exam,
 - orally communicating or receiving answers during an exam,

- having another person take an exam or complete a project or assignment,
- using unauthorized notes, texts, or other materials for an exam,
- obtaining or distributing an unauthorized copy of an exam or any part of an exam.

Plagiarism means passing off as his/her own the ideas or writings of another (that is, without giving proper credit by documenting sources). Plagiarism includes submitting a paper, report or project that someone else has prepared, in whole or in part. Collusion means inappropriate collaboration on assignments intended for independent competition. These definitions are not exhaustive. When there is clear evidence of cheating, plagiarism, collusion or misrepresentation, a faculty member will take disciplinary action. Disciplinary actions may include, but need not be limited to the following:

- requiring the student to retake or resubmit an exam or assignment
- assigning a grade of zero or "F" for an exam or assignment
- assigning a grade of "F" for the course.

Additional sanctions including being withdrawn from the course, program or expelled from school may be imposed on a student who violates standards of academic integrity.

SOFTWARE PIRACY

Law strictly prohibits unauthorized copying of software purchased by Lone Star College – Tomball for use in laboratories. Lone Star College – Tomball administration will take appropriate disciplinary action against anyone violating copyright laws.

COMPUTER VIRUS PROTECTION

Computer viruses are, unfortunately, a fact of life. Using the diskettes on more than one computer creates the possibility of infecting computers and diskettes with a computer virus. This exposes the computers of the college, your personal computer, and any others you may be using to potentially damaging viruses. The college has aggressive anti-virus procedures in place to protect its computers, but cannot guarantee that a virus might not temporarily infect one of its machines. It is your responsibility to protect all computers under your control and use and ensure that each diskette you use, whenever or wherever you use it, has been scanned with anti-virus software. Since new viruses arise continually, your anti-virus software must be kept current. And, since no anti-virus

software will find every virus, keeping copies of data (backups) is extremely important.

GUARANTEED GRADUATE POLICY

The Lone Star College System guarantees that graduates of its Associate of Arts, Associate of Science, or Associate of Applied Science and all Certificate programs, providing under certain circumstances, additional education and training tuition free to students lacking appropriate mastery of specified competencies. For additional information, refer to the Lone Star College System college catalog.

The Lone Star College System complies with the requirements of the Vocational Rehabilitation Act of 1973, Title V, Section 504 and the Americans with Disabilities Act of 1990 (ADA).
