

Message posted 15 July 2020

Exam I:

I'm hoping to schedule the first Exam on Thursday, July 23. My hope is to find a time when all students would be able to take the exam. The details of how this will happen will come tomorrow (for those who finished the spring 2020 semester in my Calculus I class, it will be a similar procedure) but for now I'm interested in time of day.

I am proposing three time-windows:

10:00am – 12:00noon

3:00pm – 5:00pm

7:00pm – 9:00pm

All times are Central Daylight Time, and all are on Thursday the 23rd.

I want you to describe each of these time windows as Possible or Not Possible. Example:

10:00am – 12:00noon Possible

3:00pm – 5:00pm Possible

7:00pm – 9:00pm Not possible

Or, perhaps:

10:00am – 12:00noon Not Possible

3:00pm – 5:00pm Possible

7:00pm – 9:00pm Not Possible

Or perhaps:

10:00am – 12:00noon Possible

3:00pm – 5:00pm Possible

7:00pm – 9:00pm Possible

Or, perhaps:

10:00am – 12:00noon Not Possible

3:00pm – 5:00pm Not Possible

7:00pm – 9:00pm Not Possible

If this is you, include a 2-hour window which would work for you. It must both start and end between 8:00am and 11:00pm.

Then, I need each of you to send an email to the egleymath2414summer@yahoo.com address with your rankings.

A couple items:

Please use the egleymath2414summer@yahoo.com address, NOT my lonestar.edu address. The college clutters up that box with about fifty emails a day, and yours would likely get lost in the shuffle.

IF YOU DO NOT SEND AN E-MAIL, I WILL TAKE THAT TO MEAN THAT **ANY** OF THE TIMES ARE OK FOR YOU.

I need to receive your email by 5:00pm tomorrow, Thursday, July 16.
