

### Section 3.2 – Graphs of Equations

The \_\_\_\_\_ of an \_\_\_\_\_ is the picture that represents \_\_\_\_\_.

Intercepts:

\_\_\_\_\_ are where the graph \_\_\_\_\_ the \_\_\_\_\_.

You find it by setting \_\_\_\_\_ and solving for \_\_\_\_\_.

\_\_\_\_\_ are where the graph \_\_\_\_\_ the \_\_\_\_\_.

You find it by setting \_\_\_\_\_ and solving for \_\_\_\_\_.

Symmetry:

TYPE	GRAPH	GRAPHICAL MEANING	ALGEBRAIC DETERMINATION

Find intercepts and symmetry:
