COURSE GOAL

The goal of this class is to transform students' academic behaviors and create a learning environment to integrate students into a collegiate environment, ensure college readiness, enhance overall performance in college courses, and facilitate successful completion of a degree or certificate.

COURSE OVERVIEW

This course serves as the Lone Star College first-year experience student success course. It is designed to provide first-year students with an opportunity to attain maximum success in college and in life. It will assist students in realizing their full potential by facilitating activities that promote effective learning and personal and professional growth. This course aims to achieve this goal by helping new students connect with LSC resources and promote a positive and successful college experience that leads to completion.

At LSC, our data reveals that this course has been successful in increasing student success.

CATALOG COURSE DESCRIPTION

A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become

effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned.

STUDENT LEARNING OUTCOMES

1. Students in the college success course will be able to identify, describe, and utilize campus support services, systems, and student life opportunities.
2. Students in the college success course will be able to use financial literacy knowledge and skills to create a personal money management plan for college success.
3. Students in the college success course will be able to establish collegial relationships with LSC faculty, staff, and peers.
4. Students in the college success course will be able to assess and report on their strengths, preferences, and college and career success attributes.
5. Students in the college success course will be able to formulate educational and career goals and apply strategies to advance their goals and college performance.
6. Students in the college success course will be able to create an academic plan and identify the requirements for successful completion of their academic plan.

COURSE OBJECTIVES

Students will:

1. Identify, discuss, and evaluate learning and study strategies as they apply to the academic environment.
2. Examine personal goals and career plans, utilize college resources including all components of the student portal and learning management system (D2L), and apply strategies for academic success.

ATTENDANCE POLICY

Attendance in face-to-face, hybrid, and online courses, including participation in D2L, is expected and supports student success. A student who anticipates an absence from class or an inability to access D2L should notify the instructor in advance. In case of an absence, it is the student's responsibility to obtain any make-up work, lecture notes, and assignments.

Tardies are disruptive to the instructional experience; therefore, 3 tardies will equal an absence. Tardies are defined as coming late or leaving early. If a student misses an extensive portion of the class [determined by instructor], he/she will receive an absence for that class period.

Absences from class or inactivity in D2L will directly impact the attendance points earned in this course. Points deducted for absences and tardies are determined by course and class length.

Participation/attendance points are earned based on 100 points divided by the number of class meetings for face-to-face classes. Hybrid classes may divide 100 points by the number of face-to-face class meetings **and weekly online participation expectations**. ***For online sessions, 100 points will be divided by the number of weeks the class is in session. Hybrid and online students must log in at least twice a week for weekly attendance.***

The decision to withdraw a student for non-attendance will be at the discretion of the faculty. An instructor may withdraw a student for non-attendance if a student misses six (6) or more hours of class participation. This equates to logging in six times. (Which is equivalent to three weeks of instruction) It is recommended that students communicate regularly with faculty immediately regarding any special circumstances. Instructors will email students prior to the withdrawal.

Qwickly App

Logging into our class and completing assignments is the way to be successful in our class. Each week you must "Check in" on the **Qwickly App** (located under "Course Activities." I open and close the "Check-In" each week on Sunday. On the following Tuesday, I will review your "Check In" and will modify your "Attendance Grade" which reflects the following activity:

- If you completed the "Assignments" for that week including "Required and Other Assignments", you will receive 100%. (present) If you do them ahead of time, your work will be recorded and posted when I grade it.
- If you don't log in and complete the "Assignments" listed above, you will receive a grade of 80% (late).
- If you don't log in and don't complete all or none of the assignments, you'll receive 0% (absent).

WITHDRAWAL POLICY

Lone Star College believes that EDUC 1300 is essential for students to be successful in college. Attendance and participation are necessary for students to benefit fully from the instructional experiences. For this reason, withdrawals **by a student** from EDUC 1300 are not allowed unless a student is completely withdrawing from the institution. Students with exceptional circumstances and proper documentation can be withdrawn from the course by a campus Vice-President or designee. Students who have never attended class from the first day of the term to the official day of record can be dropped per campus policy.

A faculty-initiated withdrawal of a student for non-attendance will be at the discretion of the faculty, must have instructional lead or dean approval, and be done in accordance with the attendance section in their syllabus (see attendance policy above). This action is in accordance with the Academic Catalog,

both for Class Attendance and Course Withdrawal Policy. The faculty member must communicate via email to any students notifying them of their withdrawal from the course.

6 – DROP STATEMENT

Students who enrolled in Texas public institutions of higher education as first-time college students during the Fall 2007 term or later are subject to section 51.907 of the Texas Education Code, which states that an institution of higher education may not permit a student to drop (withdraw with a grade of “W”) from more than six courses. This six-course limit includes courses that a transfer student has previously dropped at other Texas public institutions of higher education if they fall under the law.

CLASS PARTICIPATION

The college classroom is a place for individuals to come together with the common purpose of improving their intellectual and academic skills. All students deserve a classroom environment that is free of interruptions or distractions that impede learning. Because active participation in class discussions is essential, it is important that all students be fully prepared for class each day.

ACADEMIC INTEGRITY

Lone Star College upholds the academic core values of learning: honesty, respect, fairness, and accountability. LSC promotes the importance of personal and academic honesty from its students, instructors, and faculty members. LSC's academic integrity policies embrace the belief that all learners—students, faculty, staff, and administrators - produce their own work and give appropriate credit to the work of others. No fabrication of sources, cheating, or unauthorized collaboration is permitted on any work submitted to the College or work submitted to third parties. LSC treats academic integrity violations or engaging in academic dishonesty by students as grounds for disciplinary action under LSC's Academic Misconduct Policy found in [Board Policy Section V.F](#). LSC treats academic integrity violations or engaging in academic dishonesty by instructors as grounds for disciplinary action under Board Policy Section IV.

The consequences for academic dishonesty are determined by the professor, or the professor and academic dean, or the professor and chief student services officer and can include but are not limited to:

1. Having additional class requirements imposed,
2. Receiving a grade of zero or "F" for an exam or assignment,
3. Receiving a grade of "F" for the course,
4. Being withdrawn from the course or program,
5. Being expelled from the college system.

Professors should clearly document how the student's actions violated the academic integrity policy, how a grade was calculated, and the actions taken.

In general, plagiarism means passing off other's ideas as your own or writings of another without giving proper credit by documenting sources. This includes submitting a paper, report or project that someone else has prepared, in whole or in part. It also includes inappropriately collaborating on assignments or tests designed to be completed independently. Please see “Academic Integrity and Student Success” in the LSC Student Handbook at LoneStar.edu/Student-Handbook.

ACADEMIC APPEALS

An academic appeal is a formal request by a student to change a grade for an approved basis. A grade appeal must be made within 12 months of the date the grade was posted by the registrar. A grade may only be changed by the instructor of record, the instructor's department chair, the academic dean, or by the Academic Appeals Committee. Students in specialized disciplines should check their student handbook for program-specific appeal procedures.

Refer to the website for more information: [LoneStar.edu/Academic-Appeal](https://lonestar.edu/Academic-Appeal). The decision of the Academic Appeals Committee is final.
