

Student Instructions- How can I take the pre-A&P assessment?

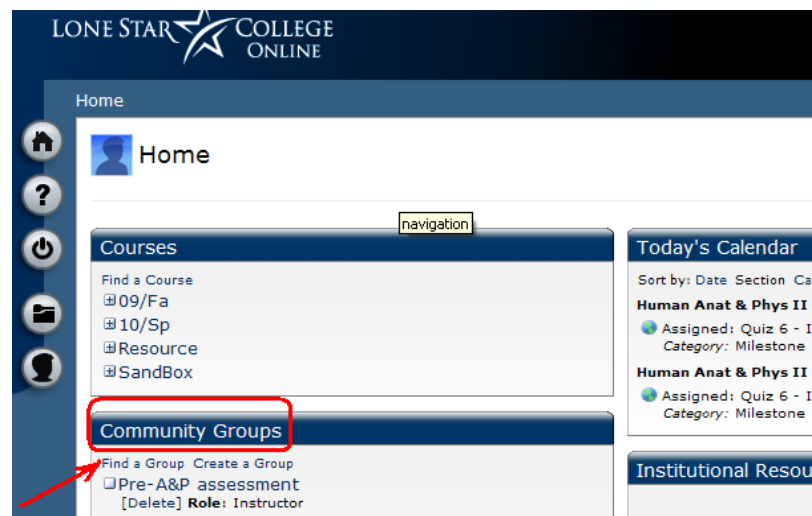

Once you have set up an Angel account as outlined in the previous document, you are now ready to enroll into the Angel community group and take the assessment. Be sure to complete steps 1-5 before arriving at the testing center to take the assessment.

If you do not have an Angel account (this is true with students new to LSCS), you can take a paper-based test. You will need to mark your responses on a 50-item scantron that can be purchased at the bookstore.

1. Go to <http://www.lonestar.edu>. Click LSC-Online link followed by the yellow login button.

2. After you log into Angel, scroll to the bottom-left of the page to access **Community groups** and Click on – **Find a group. (Do not click – Create a group)**

- In the keyword search type: “**Pre**” and click on Search to identify the pre-assessment. Alternately, you can scan the alphabetized list to identify the community group labeled – **Pre-A&P assessment** (Instructor: Smruti Desai).

Group Search

Category: Choose Group Category [v] Keyword Search: Pre [] Search [] Cancel []

Congratulations! You are now ready to take the pre-A&P assessment at the testing center.

Important note: Immediately after you complete the assessment at the testing center, you will be notified your score via a pop up message that appears when you hit submit as well as through an automated email message that is sent to your Angel email account. **All students are required to print the email message sent to their Angel email account and bring it to the registration area to be able to enroll in the course.**
